DETAILED ACTION

Election/Restrictions

1. Applicant's election of group I (claims 1-11 and 17-19) in the reply filed on 6/27/2005 is acknowledged.

Allowable Subject Matter

2. **Claims 1-11 and 17-19** renumbered as 1-14 are allowed.

The following is an examiner's statement of reasons for allowance:

3. **Claims 1-11 and 17-19** renumbered as 1-14 are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior art references which teaches at least the limitation sending the interim accounting message during the session to the accounting server, *each interm message reporting a cumulative volume of data transferred during the data session prior to sending the interim accounting message* found in at least the independent claims. In particular, the closest cited prior art U.S. Patent No. 6,870,820 B2 to *Bjelland et al.* (possible same assignee) is not clear that more than one interm message is sent and that the events are cumulative assuming that the GGSN (or SGSN) is the claimed Access Sever and the media controller (i.e., control plane) is the Accounting Server/PPS, see e.g., column 8, lines 15-24. U.S. Patent No. 6,760,417 B1 to *Wallenius* does not teach sending an interm message where the interm message reports a cumulative volume of data transferred during the data session prior to sending the interim accounting message.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany

the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
